Issues Discussed:

Proposed Amendment(s)

Applicant proposed amendments to claim 1 to overcome Amano et al. (US20210104637A1). The examiner agreed the amendments overcome Amano et al. (US20210104637A1). However, having connection pads between a semiconductor and an insulator is well-known in the art, the examiner suggested amending the claim to further clarify position of the connection pads such as directly contacting the semiconductor and/or the insulator; and/or the relationship between the location of the waveguide and connection pads.

Applicant agreed to consider examiner's suggestion.
